STV 10 gallon tank vacuum

Clarke® manufactures wet/dry tank vacuums in 20-gallon, 15-gallon and 10-gallon sizes. All three sizes, even the smaller 10-gallon, are equipped with a tool kit consisting of a two-piece wand as well as squeegee, bristle, crevice, upholstery and extension tools.

STV 15 & 20 gallon tank vacuum

The 15-gallon stainless steel tank vacuum tilts back on its wheels for easy emptying. An optional front squeegee, available on both the 15-gallon and 20-gallon size vacuums, works in either forward or backward direction for labor-saving clean up of wide areas.

STV 20D gallon tank vacuum

The 20-gallon stainless steel tank vacuum features (2) 1 hp motors, giving it the power to pick up twice as much cubic feet per minute as the two smaller size vacuums.

Clarke's wet/dry vacuums offer stainless steel tanks complete with tool kits usually found only with more expensive models. You can rely on the Clarke® STV line of stainless steel tank vacuum for durability and dependability!
