

Bona Sport®

Pacific Sport Clean

DESCRIPTION:

A waterborne, environmentally responsible cleaner specifically formulated for use in the preparation of old wood sport floors, or for periodic maintenance to clean all polyurethane finished wood floors without leaving any residue. Pacific Sport Clean is a concentrate, to be diluted with water according to directions.

FEATURES:

- Formulated for use with Bona Sport® waterborne or oil-modified finishes, and other waterborne or oil-modified urethane and maintenance coatings
- For deep cleaning and periodic maintenance
- For spot cleaning of food spills and other stains
- Leaves no oily or waxy residue
- pH neutral
- Nonflammable

RECOMMENDED USE:

- Basketball courts
- Volleyball courts
- Racquetball courts
- Squash courts
- Badminton courts
- Multi-purpose gym and stage floors
- Aerobic and dance floors

DIRECTIONS FOR USE:

BEFORE USING, READ ALL DIRECTIONS AND MATERIAL SAFETY DATA SHEET #50020 FOR THIS PRODUCT.

SHAKE WELL BEFORE USING.

IMPORTANT! NEVER POUR THE CLEANER DIRECTLY ONTO THE FLOOR.

For Daily Maintenance of Finished Floors:

NOTE: DO NOT USE ANY DUST MOP TREATMENTS. **1.** Sweep or dust mop (with untreated mop only) daily to remove dust, grit or other abrasive particles. **2.** Lightly mist your clean mop head with diluted (1 part cleaner to 8 parts water) PACIFIC SPORT CLEAN CONCENTRATE. (Replace soiled mop covers as necessary. Continued use of soiled covers will cause streaking.) **3.** For spills or spots damp wipe with PACIFIC SPORT CLEAN diluted at the 1 to 8 ratio.

For Periodic Maintenance of Finished Floors:

1. Dilute 1 part PACIFIC SPORT CLEAN CONCENTRATE to 8 parts water for a tacking solution. Tack with a well wrung-out cotton towel wrapped around a push broom. Be sure to clean towels regularly and change the solution as needed.

2. Shoe marks and scuffs can be removed by using a white pad and a low- or variable-speed buffer with a (1:8) solution of SPORT CLEAN. Lightly mist the floor with the solution as you buff. Periodically clean or replace white pad. Continued use of soiled pads will cause streaking.

3. MAKE SURE ALL RESIDUE FROM THE WHITE PAD BUFFING/CLEANING PROCEDURE IS REMOVED FROM FLOOR SURFACE BY IMMEDIATELY TACKING THE SURFACE WITH WATER-DAMPENED, WELL WRUNG-OUT COTTON TOWELS.

4. For deep cleaning dilute 1 part PACIFIC SPORT CLEAN CONCENTRATE to 5 parts water to be used as a spray-buff solution with a white pad and a low- or variable-speed buffer.

Abrading Prior to Recoating: Use the Bona Prep™ Recoat Adhesion System per label instructions. Finish with Bona Sport® SuperSport™ or Bona Sport® Sport Poly.

CLEAN-UP: Clean all tools and equipment with water.

Do not transfer contents for resale.

SPECIFICATIONS/PHYSICAL DATA:

Physical Characteristics:

Ingredients - Surfactants, dipropylene glycol monomethyl ether, water and other proprietary ingredients

Color - Brilliant blue solution (wet)

pH - 7.0 - 7.5

Solids - 2%

Viscosity - (#4 Ford cup @ 25°C) 10 seconds

Density - 8.42 lbs./gallon (1.01 S.G.)

Packaging - 5-gallon plastic pail • 1-gallon plastic bottle

Gloss Level - N/A

Odor - Non-offending

Flash Point - > 200° F

Stability - 1 year shelf life in an unopened container

VOC - N/A

Application Characteristics:

Clarity - Negligible residue (dry)

Leveling - N/A

Defoaming - N/A

Drying Time - 15 - 20 minutes

Application Tools - Varies with task; see label

Coverage - N/A

Percent Cured After 24 Hours - N/A

Maximum Cure - N/A
